

# CONFLICT MONITORING SYSTEM

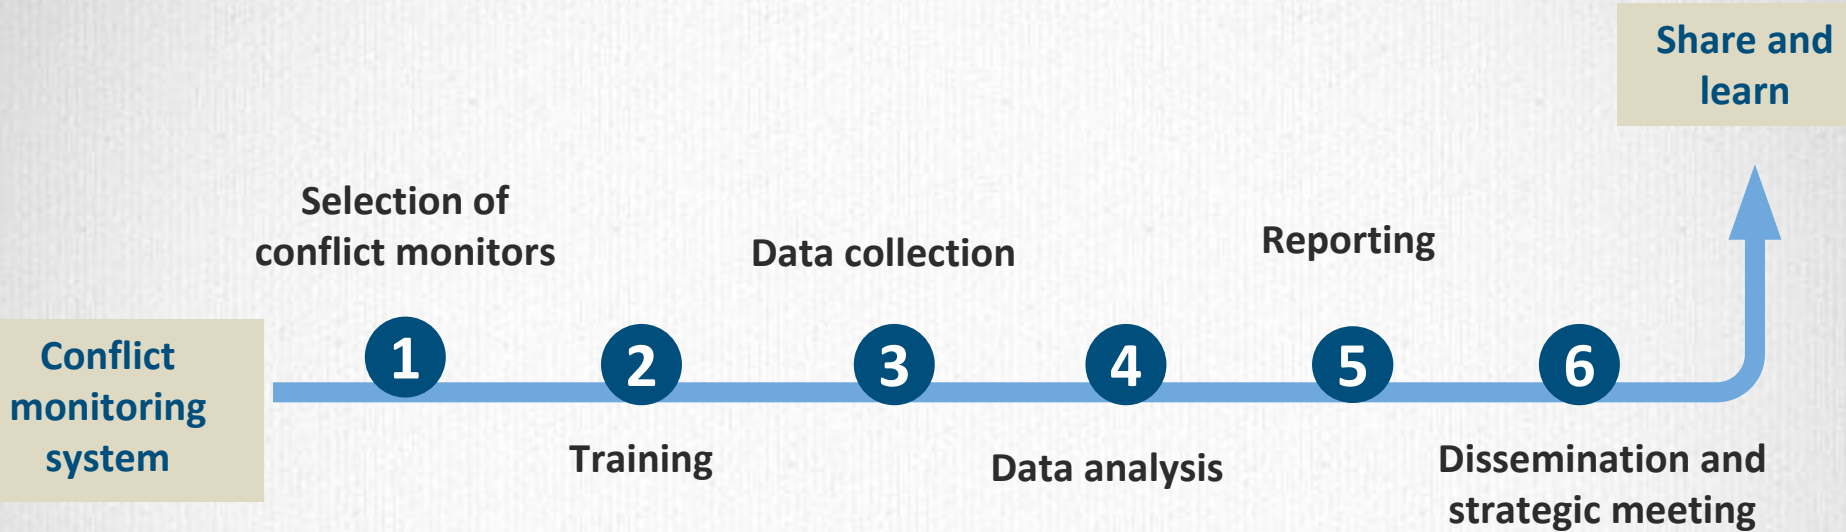

---

Sedera RAJOELISON

Design, Monitoring and Evaluation Coordinator

 **Search for  
Common Ground** Madagascar

# Set up the system

The system aims :

- to strengthen Madagascar systems for conflict monitoring
- for prevention and transformation systems
- to inform and implement programmatic interventions
- to address and respond to early warning signs of social risk

# 1 Selection of conflict monitors

Who is a young leader in the community?

Who can be a trust leader with influence within the community

## 2 Training Session

Ethics and  
methods

**Conflict  
analysis**

**Conflict sensitivity  
and do no harm**

Data collection

**KII  
Observation**

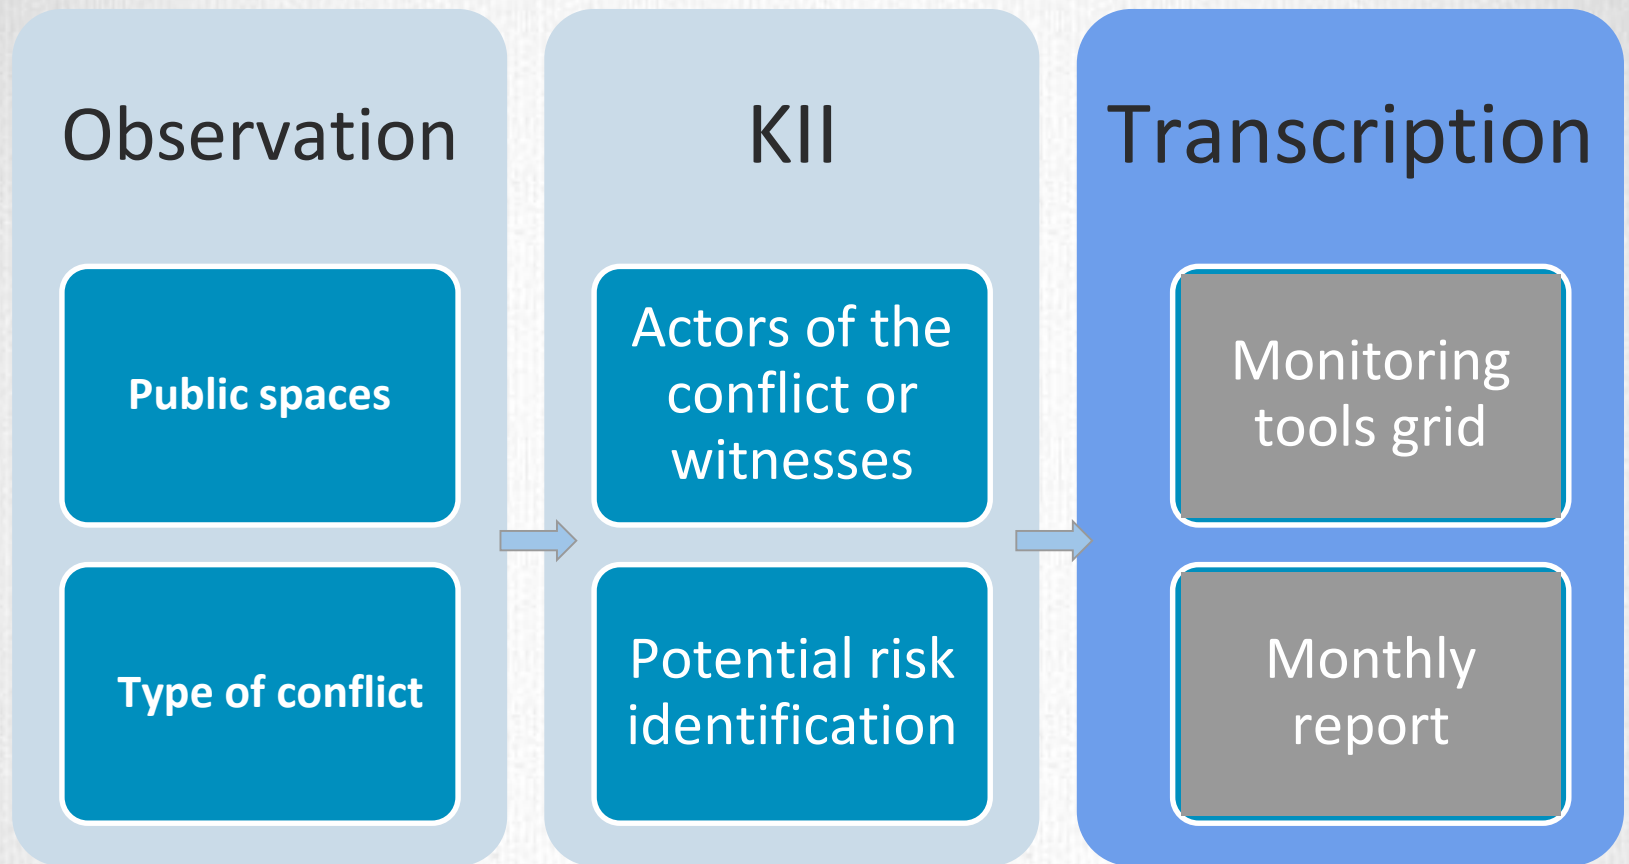

**Transcription**

Analysis and  
reporting

**Conflicts  
(manifestation  
and causes)**

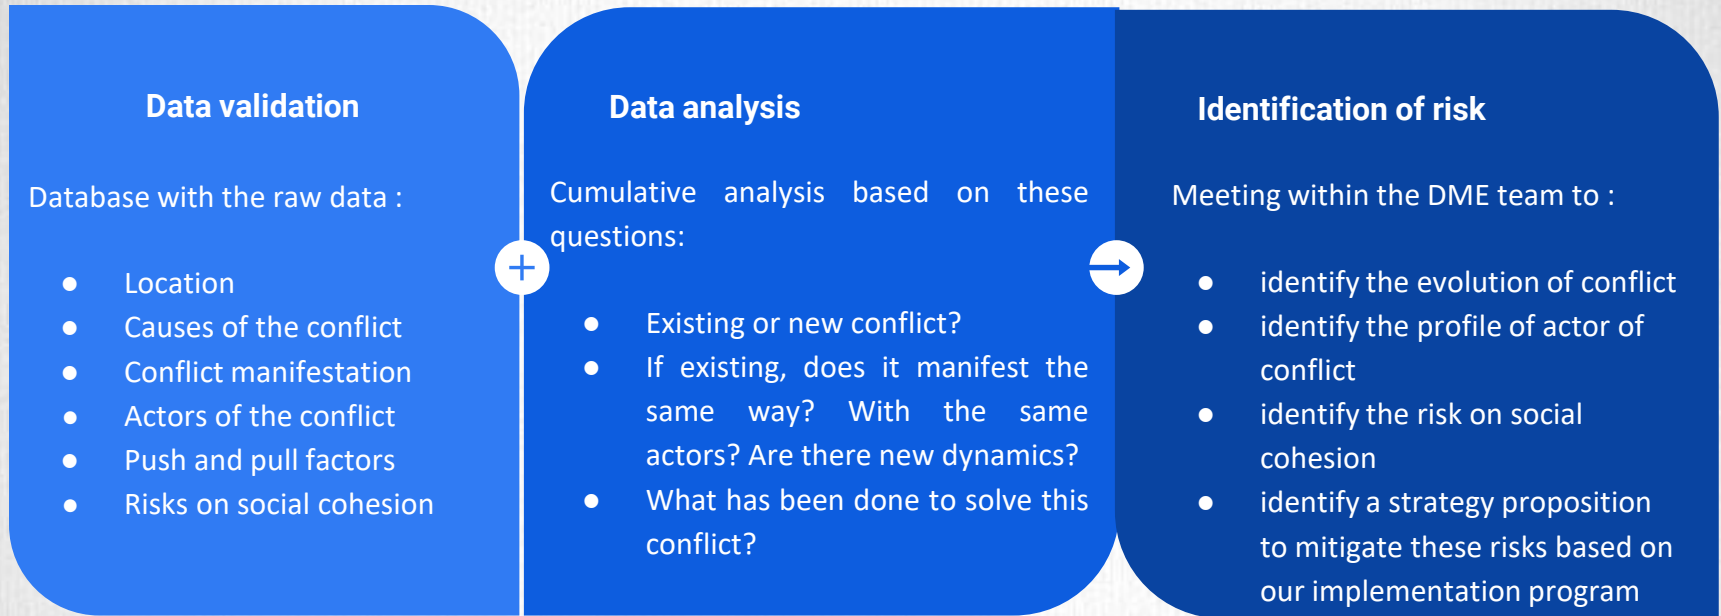

**Information  
flow and  
Reporting**

### 3 Data Collection

Monitoring tool grid					
Location	Causes of conflict + How does the conflict manifest	Actors of the conflict	Push and pull factors	Is this conflict linked to a specific actor?	Which is the risk(s) on social cohesion if this conflict persists?

## 4 Data analysis

## 5 Reporting

**Factsheet of the findings with :**

- **Dynamics of conflict**
- **Actors of the conflict**
- **Risks on social cohesion**
