BUREAU OF CONFLICT AND STABILIZATION OPERATIONS

Anticipating, Preventing, and Responding to Conflict

What Does CSO Do?

The mission of the U.S. Department of Conflict and Stabilization Operations (CSO) is to help U.S. diplomats anticipate, prevent, and respond to conflicts that undermine U.S. interests or national security. CSO accomplishes this with sophisticated analysis and data visualization, strategic and operational planning capability, civilian operational surge capability, targeted programming, and diplomatic efforts to identify, understand and address critical conflicts.

How Monitoring Data is Used

1. Communication
2. Programming Decisions
3. Learning vs. Accountability
